INTRODUCTION

This format is to be used for extended abstract submission that will be published in the proceeding of the ICUW2019. We therefore ask that authors to follow some simple guidelines as we wish to give this proceeding a consistent, high-quality appearance. The extended abstract should consists of five sections (not restricted to similar section name); Introduction, Methods, Results and Discussion, Conclusion and Reference. In essence, you should format your paper exactly like this document. The easiest way to do this is simply to download a template from the conference web site, and replace the content with your own material.

The extended abstract should be written in MS Word format in single-spaced in 12 point Times New Roman. Do not indent the text paragraphs. Please briefly explain the aim and scope of the study, the materials and methods, and the main findings and brief analysis of the study. Please observe Figure 1 and Table 1 to include figures and tables in the abstract, respectively.

Authors are requested to submit the Extended Abstracts (**maximum of 3 pages in the length**) in electronic form (MS-Word) via our Online Submission. The incorrect formats may result in your abstract being returned to you by e-mail. The scientific committee will select the contributions for oral and poster presentations.

A digital version of the ICUW2019 Proceeding will be published in the conference website. After the conference, selected submissions will be invited to be extended into full papers for publishing in selected indexed journals.

MAIN RESULTS

Figures can be included in your extended abstract and referred to in the text.

Figure 1. Example of figure for the extended abstract.

A table should be inserted like the one below and referred in the text.

Contents of Table	

CONCLUSION

The conclusion is intended to help the reader understand why your research should matter to them after they have finished reading the paper. A conclusion is not merely a summary of the main topics covered or a re-statement of your research problem but a synthesis of key points and, if applicable, where you recommend new areas for future research.

Acknowledgment: The authors would like to express their appreciation for the support of the sponsors with Project No xxxx.
